

Subject: Request for an ORCA Transit Benefit

I'm writing to ask whether [Company Name] would consider offering an ORCA transit benefit to employees.

An ORCA benefit could help employees reduce commuting costs, make it easier to travel to work without driving, and provide access to transit services throughout the Puget Sound region. Employers can choose from several ORCA Business options, including flexible subsidies and unlimited transit benefits.

Move Redmond provides free assistance to Redmond employers interested in exploring ORCA Business Programs. Their team can help compare options, estimate costs, explain eligibility, and guide employers through setup and employee communications.

More information is available at [Move Redmond ORCA webpage](#) or the company can schedule a free consultation at www.moveredmond.org/intakeform.

Thank you for considering this benefit. I would be glad to share more about how it could support my commute and other employees at our worksite.
